

*Share your faith every day as a way of life!*

### *How the Lord Used Us in January of 2015*

Hello brothers and sisters in the Lord!

We started off 2015 doing 5 MAD Live Events, 1 Walk thru the Bible Old Testament seminar, and speaking at 2 Chapel Services at a large Christian School in Columbia, SC. As we traveled we had many opportunities to share our faith with the people we connected with.

At the MAD Live Events, we were blessed to see that 10 people indicated on their evaluation forms that they had surrendered their lives to the Lordship of Christ in repentance and faith! Praise God! What a great way to start out the New Year! Also, at the Walk thru the Bible Old Testament seminar, there were 82 new non-salvation commitments to the Lord.

Our Board of Directors wanted me to look into ways of growing the ministry through some advertising. The original thoughts centered around advertising in some Christian publications. I looked into this and I wasn't very successful. As I was driving home one night listening to Word FM, I thought, "Why not see what we can do with them?" Some communication followed and we now have committed to doing 6 months of radio non-profit sponsorships on the station. There will be a number of 30 second spots each week during "drive time" promoting the ministry and the MAD Live Event. I am very excited about this and I can't wait to see how the Lord will use it to open new doors of ministry for us.

Here are a few testimonies to encourage you and bless your heart:

*"Dear Don, I attended an ISI Conference in Syracuse approx. 3 years ago. You were a guest presenter in a breakout session. Although I too have been involved in ministry for many decades, I was deeply impacted by your presentation. In particular, I have never forgotten the "three types of believers" in any church. I mention you, by name, and your analysis in some of the ministry events we conduct (as volunteers). On December 6th, I even had the opportunity to share the three types of believers at Wyoming Correctional Facility (NY) at our Protestant Family Festival. The chaplain and inmates/church leaders were also impacted by your characterization and would like to use it to reach others. Thank you for the work you do for our Lord Jesus!"*

*"Working as a plumber for home owners and contractors I look for opportunities to have spiritual discussions about Jesus and like to hand out Gospels of John as often as I*

*remember and feel prayerfully right about it. Many times as I am collecting the payment I will say something like, I'd like you to have this. It's a slice of the Bible. Or, Here is a slice of the Bible for each of you. So, I will give them two so each may read it. Most accept it happily!"*

*"Your program today saved my 17 year old daughter who I couldn't reach! No words can describe the impact of you today."*
